- ☐ It is not necessary for applicant to provide a separate record of the substance of the interview, since the interview did not result in resolution of all issues. A brief summary by the examiner appears in Part II above.

(Applicant/Applicant's Representative Signature – if appropriate)

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner hope the applicants can clarify the instant claim 5, because claim 5 claims : fine metal powders having an average particle diameter of not more than 400 nm, while Fig.1 of the instant specification and Fig 1/table 1 of 132 Affidavits show the average particle diameter could be over 400 nm when concentration of trivalent titanium ions over 65 %. No conclusion has been reached.
